

June 13-14, 2018 – Neuwied

Save the Date!

For the second time, W+D in cooperation with FEPE will be presenting Direct Mail Days:

Direct Mail Days 2018 June 13-14, 2018, in Neuwied

The symposium will include presentations on industry trends, the impact of physical mail on response rates, applications and creative ideas as well as solutions for use with direct mail.

In addition, we will be presenting our Halm based W+D digital press and our W+D BB700 S2 inserting system. The W+D 410 Easy Enveloper for envelope production has been developed by using an embossing station and will also be presented. Of course, there will also be live demos of creative direct mail applications on all machines.

The forum will be rounded off by an exhibition at which various international companies will inform you first-hand about the latest trends and products for the industry.

You can also exchange information with visitors, exhibitors and W+D contacts at the "Get together" after the forum on Wednesday evening.

We`ll start our program on June 13 at noon. The event will end on June 14, also at noon. Catering is included.

I will be attending Direct Mail Days 2018 in Neuwied free of charge and would like to register as visitor for the event:

Company: _____

Last name, first name: _____

Address: _____
